Regular Price \$75.00

Sale \$65.00

## New Services

At Taylor Made Too, our aim is to help our customers solve their problems, whether it be with the equipment they need for their horse or to provide services in other ways. For example, in 2009, we were requested by a few horseshow organizers to find some **unique prizes** for their championships in all divisions. With a little imagination, creativity and shopping time, we produced appropriate **“gift buckets”** that were well received by the recipients and affordable for the organizers. Everyone was happy. So if you find you have a **horse-related project** that you need assistance with, please give us a call.

We just might be able to help you!

## New Products

Last year, we also introduced some **rider-focused products** to expand our line. We have added Old West Paddock Boots, Outback Trading Co. Coats and Vests as well as Horsehair Bracelets, Purses, Key Chains and other equestrian-themed novelties. This year we will be featuring **beautiful note cards** with original watercolour artwork and photography by **local artists**. Drop by and have a look sometime, we'd love to see you!

## Companies We Buy From

A much as possible, we prefer to carry products from **domestic manufacturers**, either in Canada or the U.S. We feel it makes sense to keep our business close. This has lead us to buy from such companies as Thornhill Enterprises, Nunn Finer, Saratoga Horsecworks, Phoenix Performance Products (Tipperary), York Saddlery and Brubacher's Harness. We have recently discovered **Ecogold** high performance saddle pads, girth covers and horse boots that are made in Quebec. They offer high breathability, quick drying, impact resistance and are non-slip. We feel they give **good value** for you money and intend on adding them to our inventory soon.

## Custom Work & More

Repairing and reconditioning tack has become one of our specialties. We can also **customize you purchase**, whether by adjusting a bridle to fit your horse properly, ordering a blanket in your favourite colours or by just adding a name plate. We're here to help. We have also made some items for **non-equestrian customers** like hunting knife sheaths, tool belts, dog harnesses and even a “soot sock” for use while cleaning a wood stove. So when you need something done, give us a call!
